

DCR Publisher

<https://documentation.dcr.design/documentation/dcr-publisher/>

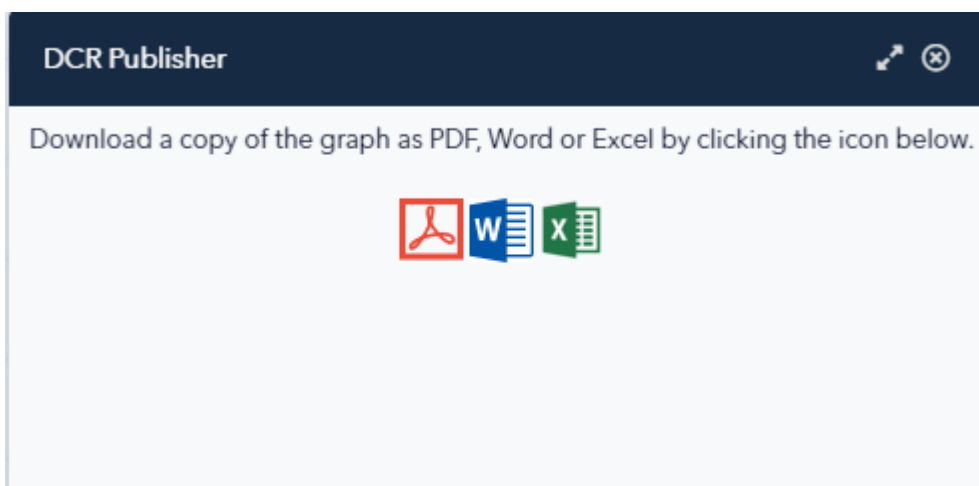

The DCR Publisher is an application in the [DCR.Design Portal](#) tool that will grant you access to the graph information in different formats based on your choice.

Using the menu you can access DCR Publisher which can be used to output your graph information in a PDF, Word or Excel format.

Select the App from the menu

The following screen will be shown

Now click either on PDF, Word, or Excel icon and a description of your graph will be created in a document that can be downloaded.

Type: User guide

Audience: Modelers
